## Wet 'n' Joy

Wet 'n' Joy  
in the Rain,  
is coming  
again and again. ♡

Lightning and thunder  
in the sky,  
Rain is coming  
again and again. ♡

Clouds are having  
lots of pain,  
Rain is coming  
again and again. ♡

Wet 'n' Joy  
in the rain,  
Rain is coming  
again and again. ♡

## Wings of Wonder

Aerial transport is done by an airplane,  
Carbon emissions may make it a bane.  
Planes use wings in order to fly,  
They rise thousands of feet in the sky.

On a plane are three pairs of gears,  
But the nose-wheel is tough to steer.

After landing, we apply the brakes,  
So smooth, they don't give a shake.

After that, we apply reverse thrust,  
For slowing down, it's a must.

For leaving the stand, we need a pushback,  
It helps a plane get on the taxi track.

In order to fly, we need to make lift,  
The laws of Physics get into a rift.  
Each and every time, a plane takes off,  
A checklist is always fully checked off.

After taxiing, we need to park,  
So that passengers can disembark.  
On a Boeing, a pilot holds the yoke,  
While the other, sips a Diet Coke.

In an Airbus, we use a sidestick,  
Its designs and controls are nice and slick.

During a bird strike, an engine fails,  
If we ditch, everybody bails.

Aerial transport is the safest,  
Though for your pocket, it's not the best.

To go up and down, we use an elevator,  
For lateral navigation, we use a rudder.

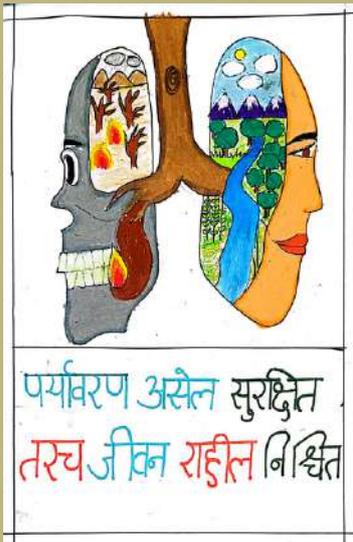

The landing gears are strong as Hulk,  
It helps us carry goods in bulk.

Fighters are used by the military,  
We citizens are its beneficiaries.

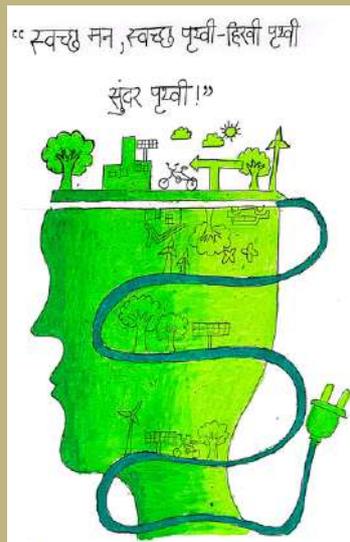

By- Amey Gogate, VIII-B

# "A June to Remember: Playschool Begins"

June 2025 marked a special milestone, as our little ones stepped into playschool for the very first time. The day was filled with a mix of emotions — some children smiled with excitement, while others shed a few tears as they adjusted to the new environment. Parents, too, experienced a whirlwind of feelings — pride, nervousness, and joy as they watched their children take their first steps on this new journey of learning and growth.

## RED VIBES

The nursery children joyfully celebrated Red Day by dressing in vibrant red and participating in a variety of engaging activities. They enhanced their colour recognition and sorting skills by sorting red balls through circles, making the day both educational and enjoyable.

## WE ARE BLOOMING WITH F!

Sr. KG children explored the letter 'F' through the theme of flowers, learning about different types of flowers, their names, uses, and parts. By actively engaging in hands-on activities, they deepened their understanding while developing curiosity and observational skills.

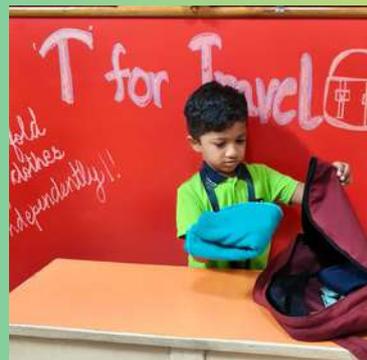

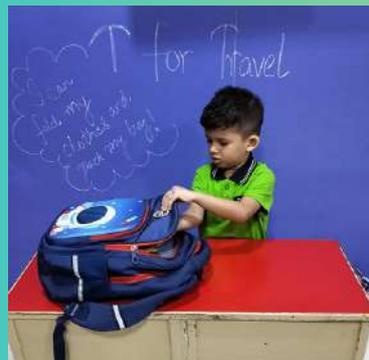

## LITTLE HANDS – BIG SKILLS

The nursery children learned how to fold mats as an important life skill. This activity helped improve their hand-eye coordination and fine motor skills, while also teaching them responsibility. It further encouraged independence and a sense of self-care.

# TINY TRAVELLERS

Jr. KG children explored the letter 'T' through the theme of travel, discovering new words and ideas related to the letter. They also practised packing a bag for travel, an activity that helped develop their organisational skills and practical understanding.

# SHAPE BUILDERS

By pulling strings to create 3D shapes, Sr. KG children actively learned how two-dimensional shapes transform into three-dimensional forms. This hands-on experience promoted spatial reasoning and enhanced their dexterity.

# EGG-CITING EASTER CELEBRATION

Our Easter celebration was a joyful festival of new life, where children engaged in creative craft activities like decorating eggs and engaging themselves in bunny crafts. The celebration also included a fun twist—integrating "egg emotions" to help children express their feelings while enjoying the spirit of Easter.

## TWO TIMES FUN!

Children enjoyed exploring the number 2 through fun activities like balancing two balls while walking along the shape of the number and carefully sliding a ball between a large number 2. These playful exercises helped them connect with the number in an active and engaging way.

## LENGTH LAB

The children explored the concepts of long and short using blocks during an activity. By comparing and building with blocks of different lengths, they developed their understanding of size differences as well as their fine motor and observation skills.

# REVIEW TIME FOR LETTERS A AND B

To make learning exciting, nursery children explored the letters A and B with playful activities—arranging amazing arrows for A and bouncing big balls for B, filling the day with energy and smiles.

# SUNSHINE AND SMILES DAY!!

To kick off the summer vibes before the holidays, our little ones dived into a world of excitement with splashing water games, sandy adventures, and cool shadow-tracing. They also got creative with a delightful ice cream sundae craft, making sweet summer memories filled with laughter and joy.

## CRUNCHY CARROT C

The children had a delightful time learning about the letter C by feeding carrots to a cute bunny during their activity. This hands-on experience made discovering the letter both fun and memorable.

## MY B BOOK

Students of Sr. KG focused on the letter B by creating their own small letter B books. They carefully drew and coloured pictures that began with the letter. This activity enhanced their fine motor skills, creativity, vocabulary development, and early writing abilities, making learning both meaningful and enjoyable.

## FAIR AND SQUARE

The nursery children explored the square shape by creating their own squares with popsicle sticks. This creative activity supported their understanding of shapes while enhancing their fine motor skills and concentration.

## BAGLESS DAY ACTIVITY SCIENCE : GRADE 5

Creativity with Types of muscles.  
Integrating science and art

## BAGLESS DAY ACTIVITY SCIENCE : GRADE 3

Art work using petals and leaves  
to make a poster to take care of plants.

## Activity : Family Tree

A family tree is a visual representation of a family's relationships and history. It helps students to understand how family members are connected and where they come from. By exploring family trees, students of grade I gained a deeper understanding of their roots and connections!

## Microgreen Magic

The students of grade 2 explored the world of microgreens by planting, observing, and nurturing tiny sprouts daily. They learned about nutrition, growth, and patience through the green adventure!

# Mapping the World with Latitudes and Longitudes

Grade 5 students created engaging visual presentations to demonstrate their understanding of latitudes and longitudes. The activity strengthened their map-reading skills and ability to locate places using coordinates.

## Compost Pit Activity (grade 3 students)

Compost Activity promotes environmental awareness, This activity provided a hands-on learning experience for students of Std 3 about waste reduction, recycling, and environmental sustainability. Students can create nutrient-rich compost to enrich school gardens and learn about the natural decomposition process. This activity can foster a sense of environmental responsibility and promote a more sustainable school environment.

## "From Silos to Synergy"

by Mrs. Norina Fernandes

On 28th June 2025, a workshop titled "From Silos to Synergy" was conducted by Mrs. Norina Fernandes for the Pre-Primary, Primary, and Secondary section teachers in the A.V. Room. The session included a variety of reflective activities that encouraged teachers to tap into their imagination and think creatively. It inspired them to become visionaries, working collaboratively towards a shared vision for the school.

# BAGLESS DAY ACTIVITIES (25 JUNE, 2025)

Vissanji Academy observed Bagless Day with a thoughtfully curated set of activities designed to offer students of grades 6, 7, and 8 a refreshing, hands-on learning experience beyond textbooks.

## YOGA SESSIONS FOR STUDENTS

## Interactive workshop on Puberty, Relationship and Wellbeing of students

# BAGLESS DAY ACTIVITIES (25 JUNE, 2025)

S 6 and 7 participated in a Financial Literacy activity, where they collaboratively planned a budget for a hypothetical school vacation, developing practical money management skills. They also attended an informative Health Talk, followed by a relaxing yoga session. Creative expression took centre stage during the Origami (Wall Hanging) activity, allowing students to explore art through paper folding.

## Activity: Financial Literacy

## Activity :- Wall Hanging

## Activity: - Tulip Flower Bouquet

# BAGLESS DAY ACTIVITIES (25 JUNE, 2025)

Grade 8 students enjoyed an equally enriching and engaging experience. They created Origami Face Masks, blending creativity with craftsmanship. The Health Talk and yoga session focused on well-being and mindfulness. Students also engaged in board games, fostering strategy and teamwork, and spent rejuvenating moments during the Time with Nature activity, deepening their connection with the environment.

## Activity:- Health awareness activity -Diabetes

## Activity: - Face Masks

## Activity:- Board games

# Regional Meteorological Centre

On 5th June, 2025, students of grade 8A, and on 6th June, 2025, students of grade 8B visited the Regional Meteorological Centre, Colaba. The students observed the use of Stevenson screens, Dry and Wet bulb thermometers, and how weather data is processed. They also learnt how satellites, radars, and ground-based sensors help generate accurate weather forecasts.

Students gained an understanding of meteorological science, its tools and techniques, and its vital role in weather forecasting and disaster management for the safety of the community.

## Donation Drive by the students of Global Scholars

On 9th June, 2025, grade 8 students visited Royal Palms in Aarey Milk Colony for a donation drive under the Global Scholars Community Action Project. They interacted with the underprivileged children and donated various stationery items. This drive helped in fostering empathy, gratitude, and a strong spirit of community service among the students.

# INCEPTION DAY

On 9th June, 2025, a special assembly was held to commemorate the 62nd Inception Day of our school. Students presented a variety of performances to mark the occasion with enthusiasm and pride. The event was graced by our Trustee and the PTA members. The Principal shared inspiring reflections and offered a glimpse into the rich history and journey of the school.

## Activity-Marathi slogan Competition

# Intra-School Science Fest 2025

On 18th June, 2025, an orientation session for the Intra-School Science Fest 2025 was conducted in the school auditorium for the students of grades 6 to 8. Organised by the Science Department in collaboration with ARCOMM, the session aimed to brief students about the upcoming Science Fest scheduled for 7th November, 2025. Mr. Abhishek Jha from ARCOMM introduced the event, highlighting various topics and the timeline. Students showed great enthusiasm and expressed the need for more clarity regarding topic selection and event rules. The event encouraged active listening and critical thinking among students.

## VISSANJI MUN

In collaboration with IIMUN, on 16th June 2025, an orientation session for the upcoming Vissanji Model United Nations (VMUN) was held in the school auditorium for the students of grades 7 to 10. The session has aimed to introduce students to the structure and purpose of MUN, along with the various committees involved. Subsequently, a three-day training session will be held from 30<sup>th</sup> June, 2025 to 2<sup>nd</sup> July, 2025. Conducted by Gaurav Arora, an intern at IIMUN, the session sparked enthusiasm among students, many of whom expressed interest in participating and suggested the inclusion of more relatable current affairs topics. The session proved valuable in developing public speaking skills, building confidence, and enhancing students' understanding of global issues.

# Interhouse Team Sports Events in Full Swing! 🏆

Here are a few exciting glimpses of our students showcasing teamwork, skill, and house spirit on the field!

## STUDENT ACHIEVEMENT: RANVEER ADIT SINGH REPRESENTS INDIA

We are immensely proud to announce that Ranveer Adit Singh, a talented and dedicated student of our school, has been selected to represent Team India at the 1st Asian U-17 Men's Handball Championship, to be held in Amman, Jordan. This remarkable achievement stands as a testament to his dedication, hard work, and sporting excellence. We congratulate Ranveer on this significant milestone and wish him continued success on his exciting international journey!
